

Creating, Connecting and Sharing Knowledge about Culture and Society

DARIAH is a **distributed Research Infrastructure** that supports and enhances digital-enabled research and teaching across the **arts and humanities**. DARIAH brings together **people, expertise, information, knowledge, content, methods, tools and technologies** from its member countries across Europe.

20 Member Countries
197 National Partner Institutions

8 Cooperating Partners
in 6 non-member Countries

 Supporting the digital transformation of humanities research by **facilitating access** to new research methods and new technologies

 Guiding through the changing policy landscape, providing **Open Science** and domain-specific **Open Access** best practices

 **Advancing technology**, offering **sustainability** possibilities for **long-term accessibility** of digital research projects, methods, tools and services

 Promoting **teaching and training**, ensuring access to boundless training resources and opportunities
